

Refill Eco Cup Scheme

- A 12oz cup, foam injected polypropylene which insulates and protects hands and also makes the cup 100% recyclable.
- Using the refill cup 17 times as opposed to 17 single use cups, you cut your carbon footprint by 46% less.
- Bring your cup back for a refill and we will give you a fresh clean one, whilst the previous one is sterilised and cleaned.
- £1 deposit for the cup, which can be returned upon the cup given back in satisfactory condition.
- Completely dishwasher proof to at least 1000 times.
- Help stop the curb side waste, the overcrowded bins and the rivers and oceans being filled.

Did you know?

7 million paper use cups and plastic lids are used daily, less than 1% is recycled. And is used on average just 15 minutes.
